**AT&T**

Good afternoon. I was unable to find any damages for the Bandera address you provided. This may have been another carrier that was affected (i.e. Verizon, T-Mobile, etc.), but we do not have any sites that were affected near the 918 Bandera address.

As mentioned in our earlier conversation; I am providing you the list of our 5 sites, that were affected by Arson Q2 of 2022. The total, amount of maintenance expenses, we incurred to complete the repairs - **\$49,511.76.**

10009506	59506	MAINLAND	8206 SAND PEBBLE	San Antonio	AP 2202-05-12-010449

As far as cost on loss of downtime, I have reached out to find a way to possibly quantify that in a dollar amount. I have yet to hear anything back, but when I do I will share that info.

Thanks again for reaching out and hopefully you folks can find a way to link the suspect to the above mentioned sites that were affected by arson. We worked primarily with Jesse Moncada with SAFD-Arson, so maybe he can provide more info that may be beneficial.

Good luck!

**Thanks and V/r,**

**T-Mobile**

**5750 Ingram Rd**

Morning Mr. Snow.

There was a service outage caused by this incident.

All call processing, including 911 services, provided by T-Mobile were severed by this incident.

33% service was restored in approx. 24 hours.

Due to a nesting raptor, the remaining 66% wasn't restored until 6/17/2022.

T-Mobile shows no record of filing an insurance claim for this event.

T-Mobile spent:

Parts = \$585.00

labor = \$13,170.00 (includes removal & cleanup of burned equipment, installation of new equipment)

Please let me know if there is any additional information you may need.

Thanks,

Bowen Pratka
